### 5. **New:** Split Shift management curated especially for you! (October)

Large supermarkets/malls have hundreds of employees, making workforce management a crucial task. In such businesses, service is

provided till late evening, so employees need to work multiple shifts including split shifts. Additionally, the demands are varied in terms of time durations, roles, and responsibilities.

Split shift allows employees to take a prolonged break in between and work in two sessions even on weekends and holidays. However, mismanaged split shifts result in employee dissatisfaction and even attrition.

It's time to turn the tables with advanced technology! Switch to easy split shift management with **greyTHR's Split Shift!**

**Who can experience the functionality:** All users with Attendance Module
